TORONTO – March 4, 2020 – Points International Ltd. (TSX: PTS) (Nasdaq: PCOM) (Points or the Company), the global leader in powering loyalty commerce, is reporting financial results for the fourth quarter and full year ended December 31, 2019.

Unless otherwise noted, all comparisons are on a year-over-year basis and all amounts are in USD. The complete 2019 Audited Consolidated Financial Statements and fourth quarter and full year Management Discussion & Analysis, including segmented results, are available at www.sedar.com and www.sec.gov.

Fourth Quarter 2019 Financial Highlights (vs. Q4 2018)

- Total revenue increased 13% to \$107.0 million compared to \$94.9 million.
- Gross profit¹ increased 25% to \$17.6 million compared to \$14.1 million.
- Net income increased 23% to \$2.8 million or \$0.20 per diluted share, compared to \$2.2 million or \$0.16 per diluted share.
- Adjusted EBITDA² increased 43% to \$7.2 million compared to \$5.0 million.

Full Year 2019 Financial Highlights (vs. 2018)

- Total revenue increased 7% to \$401.2 million compared to \$376.2 million.
- Gross profit increased 21% to an annual record \$65.5 million compared to \$53.9 million. Excluding the benefit of an approximate \$6.0 million tax rebate that was confirmed in the second quarter for claims related to prior periods, gross profit was up 10% to \$59.4 million, which was still an annual record.
- Net income increased 53% to \$11.9 million or \$0.86 per diluted share, compared to \$7.8 million or \$0.54 per diluted share.
- Adjusted EBITDA increased 15% to an annual record \$21.5 million compared to \$18.6 million.

¹ Gross profit is defined as total revenue less the direct cost of revenue. Gross profit is considered by management to be an integral measure of financial performance and represents the amount of revenues retained by the Company after incurring direct costs. However, gross profit is not a recognized measure of profitability under IFRS.

² Adjusted EBITDA (Earnings before income tax expense, depreciation and amortization, foreign exchange, finance costs and equity-settled share-based compensation and other one-time costs or benefits such as a tax rebate related to prior periods) is considered by management to be a useful supplemental measure when assessing financial performance. Management also believes that adjusted EBITDA is an important indicator of the Company's ability to generate liquidity through operating cash flow to fund future capital expenditures and working capital needs. However, adjusted EBITDA is not a measure of financial performance under IFRS and should not be considered a substitute for Net Income, which we believe to be the most directly comparable IFRS measure.

Management Commentary

“2019 was a record year for Points, highlighted by an exceptional fourth quarter where we generated more than 40% growth in adjusted EBITDA to \$7.2 million, our highest quarterly mark in company history,” said Points CEO Rob MacLean. “The fourth quarter benefitted from the investments made over the last year to enhance our data-led marketing capabilities, which continued to drive improved performance of in-market engagements. In fact, we continued to see strong gross profit growth with our top partners in 2019, as we deepen our relationships throughout the industry.

“In addition to delivering on our growth expectations in 2019, we executed on our plans for international expansion, industry diversification, and corporate development. In 2019, we opened new offices in Singapore and Dubai, and generated gross profit growth in Europe, the Middle East, and the Asia Pacific, as these regions continue to become a larger portion of our overall economics for the third year in a row. In addition, we launched programs in newer verticals with companies like Lyft and HSBC/Airmiles Middle East, Home Chef, and made progress in growing our strategic partnership with Amadeus.

“Looking ahead, we remain on track for our long-term growth expectations of generating gross profit in the high-\$90 million range and adjusted EBITDA in the mid-\$40 million range as we exit 2022. Our ability to deliver on these financial goals is backed by our growth strategy and consistent execution over the last several years, as we have increased adjusted EBITDA by more than 80% since 2016. Our team is extremely proud of what we accomplished last year, but we are even more excited about what’s in store for the years ahead.”

Fourth Quarter 2019 Financial Results

Total revenue in the fourth quarter of 2019 increased 13% to \$107.0 million compared to \$94.9 million in the prior year quarter. Principal revenue increased 11% to \$98.2 million compared to \$88.3 million, and other partner revenue increased 35% to \$8.9 million compared to \$6.6 million.

Gross profit in the fourth quarter increased 25% to a quarterly record of \$17.6 million compared to \$14.1 million in the prior year quarter. The increase was primarily driven by record performances in the Loyalty Currency Retailing and Points Travel segments.

Adjusted operating expenses³ in the fourth quarter of 2019 were \$10.6 million compared to \$9.3 million in the prior year quarter. The increase was primarily a result of higher personnel-related costs associated with the resources added in 2019 to support the Company’s growth initiatives.

Net income increased 23% to \$2.8 million or \$0.20 per diluted share, compared to \$2.2 million or \$0.16 per diluted share in the prior year quarter.

Adjusted EBITDA in the fourth quarter increased 43% to a quarterly record of \$7.2 million compared to \$5.0 million in the prior year quarter. Effective margin, which is defined as adjusted EBITDA as a percentage of gross profit, increased to 40.9% compared to 35.7% from the prior year period.

At December 31, 2019, total funds available, comprised of cash and cash equivalents, funds receivable from payment processors, and cash held in trust and restricted cash, increased 4% to \$86.8 million compared to \$83.1 million at December 31, 2018. The Company remains debt free.

³ Adjusted operating expenses consist of employment expenses excluding equity-settled share-based compensation, marketing and communications, technology services and other operating expenses. Adjusted operating expense is not a measure of financial performance under IFRS and should not be considered a substitute for total operating expenses, which we believe to be the most directly comparable IFRS measure.

During the fourth quarter, Points repurchased for cancellation approximately 200,000 common shares at an average price of \$11.90 per share through its Automatic Share Purchase Plan in conjunction with its Normal Course Issuer Bid.

Full Year 2019 Financial Results

Gross profit in 2019 increased 21% to an annual record of \$65.5 million compared to \$53.9 million in the prior year. Excluding the benefit of a \$6.0 million tax rebate that was confirmed in the second quarter for claims related to prior periods, gross profit was still a record \$59.4 million, an increase of 10% over the prior year.

Total adjusted operating expenses in 2019 were \$38.9 million compared to \$36.0 million in 2018.

Net income increased 53% to \$11.9 million or \$0.86 per diluted share, compared to \$7.8 million or \$0.54 per diluted share in 2018.

Adjusted EBITDA in 2019 increased 15% to an annual record \$21.5 million compared to \$18.6 million in the prior year. Effective margin improved 160 basis points to 36.1% compared to 34.5% from the prior year.

2020 Outlook

Points expects 2020 gross profit to range between \$67.0 million and \$73.0 million, reflecting approximately 13% to 23% growth from 2019⁴. The Company also expects adjusted EBITDA to range between \$23.0 million and \$27.0 million, reflecting approximately 7% to 26% growth from 2019. At this time, the Company has not seen any material impact to the performance of its existing business resulting from the recent COVID-19 virus outbreak. Accordingly, the Company has not included any impact from the outbreak into its 2020 outlook, and will update investors as appropriate when the longer term impact becomes more clear.
