TORONTO - August 11, 2021 - Points International Ltd. (TSX: PTS) (Nasdaq: PCOM) (Points or the Company), the global leader in powering loyalty commerce, is reporting financial results for the second quarter ended June 30, 2021.

Unless otherwise noted, all amounts are in USD. The complete second quarter Condensed Consolidated Interim Financial Statements and Management's Discussion & Analysis are available at www.sedar.com and www.sec.gov.

"Our second quarter performance continued our momentum from last quarter, with strong sequential and year-over-year improvements across our key financial metrics," said Rob MacLean, CEO of Points. "We generated over \$100 million in revenue for the first time since the fourth quarter of 2019, with growth across gross profit and Adjusted EBITDA¹ also outpacing our expectations. While we have continued to drive transactions through our promotional activity, our services more closely tied to near-term travel also began to reaccelerate as a result of vaccine-related tailwinds. These trends demonstrate the continued progress of our recovery from the lows of the pandemic last year, as well as the resilience of our platform and growth strategy.

"We have delivered robust progress on our core growth drivers through deepening our existing engagements, establishing new global partnerships, and enhancing our in-market services through our growing automated marketing capabilities. In addition to further expanding our presence in the Middle East, we have signed a new long term partnership with a prominent carrier in the Asia-Pacific region. We will be launching a number of services with this partner in the coming months and look forward to updating you on the progress. We have also increased our deployments in non-travel verticals, both through further developing pre-pandemic engagements and expanding our services into new types of loyalty programs. Looking ahead, we continue to have a very healthy pipeline of business, and I expect discussions with both new and existing partners to remain positive."

Mr. MacLean concluded: "Amid ongoing positive industry trends, we recognize that the pace of global recovery remains fluid. We continue to monitor changes in health protocols around the world, especially those related to the Delta variant. Within our business, we remain cautiously optimistic about our growth trajectory for the second half of 2021, and are encouraged by the strong sequential growth we have generated over the last three quarters. We look forward to leveraging our strong financial and operational foundation to further optimize the value we create for our partners, loyalty customers, and shareholders alike."

¹ Adjusted EBITDA (Earnings before income tax expense, depreciation and amortization, foreign exchange, finance costs, share-based compensation expense and other one-time costs such as impairment charges) is considered by management to be a useful supplemental measure when assessing financial performance. Management also believes that Adjusted EBITDA is an important indicator of the Company's ability to generate liquidity through operating cash flow to fund future capital expenditures and working capital needs. However, Adjusted EBITDA is not a measure of financial performance under IFRS and should not be considered a substitute for Net Income, which we believe to be the most directly comparable IFRS measure. See Non-GAAP Financial Measures section of Management's Discussion and Analysis.

Second Quarter 2021 Financial Highlights

<i>(in millions USD)</i>	For the three months ended		
	June 30, 2021	March 31, 2021	June 30, 2020
Total Revenue	\$103.0	\$65.0	\$40.9
Gross Profit	\$12.3	\$9.0	\$7.0
Total Operating Expenses	\$11.6	\$10.2	\$10.6
Net Income/(Loss)	\$0.5	(\$1.1)	(\$3.3)
Adjusted EBITDA	\$3.4	\$1.2	\$0.3

- Total revenue in the second quarter of 2021 increased 58% on a quarter-over-quarter basis, driven by continued improvements across both marketing activity and non-promotional or "baseline" activity more closely associated with near-term travel. On a year-over-year basis, total revenue increased 152%, reflecting strong sales recovery from the lows of the COVID-19-related impacts in the prior year quarter.
- Gross profit in the second quarter of 2021 improved 37% compared to the first quarter of 2021 and increased 76% compared to the prior year quarter. The sequential and year-over-year increases were driven by the Company's aforementioned marketing, promotional and baseline improvements, as well as continued recovery from pandemic-related impacts.
- Operating expenses in the second quarter of 2021 increased both sequentially and year-over-year due to an expected decrease in the amount of wage subsidy funding received under the Canada Emergency Wage Subsidy program, the gradual easing of some spending restrictions implemented at the outset of the pandemic as financial performance continues to improve, and, to a lesser extent, the impacts of foreign exchange headwinds on the Canadian dollar. The Company recognized wage subsidies of approximately \$0.6 million as an offset to operating expenses in the second quarter of 2021 and does not anticipate participating in further subsidies for the remainder of the year.
- Total funds available, which is defined as the sum of cash and cash equivalents, cash held in trust and funds receivable from payment processors, at the end of the second quarter were \$94.5 million compared to \$79.1 million at the end of 2020. As at December 31, 2020, total funds available included \$15.0 million of borrowings on the Company's senior secured credit facility, which was repaid in the first quarter of 2021. The increase primarily reflects the proceeds from the bought deal financing the Company completed in the first quarter of 2021, as well as the aforementioned strong sales activity.

Recent Operational Highlights

New Partnerships

- In May, signed a long term and multi service agreement with a prominent carrier in the Asia-Pacific region. These services are expected to launch in the second half of 2021.
 - In April, launched a previously announced new partnership with Mashreq Bank, a leading United Arab Emirates financial institution, to allow members of Mashreq's Salaam program to exchange points into Emirates Skywards miles.
 - Launched Exchange service with Bilt Rewards, the rewards program that allows renters to earn points on rent and build a path towards homeownership.
-

Expanded Partnerships

- In April, announced the Rapid Rewards Subscription Plan with Southwest Airlines, allowing members to build towards a predetermined rewards balance through monthly points deposits.
- Expanded partnership with the Qatar Airways Privilege Club program during the second quarter with two additional services: (1) Hotel & Car Rewards service, enabling members to earn and redeem their miles on hotel bookings and car rentals; and (2) Launched our Accelerate Anything service for Privilege Club members.
- In July, deployed the Accelerate Anything Service with the Etihad Guest program. The Accelerate Anything service allows members to accelerate their current miles balance-regardless of how these miles were earned. Etihad is the third loyalty program partner in the growing Middle East region to take advantage of this new capability.
- In June, facilitated new integration between Frontier Airlines and meal kit delivery service Home Chef, further developing the Home Chef deployment after its pre-pandemic launch.
- Expanded exchange opportunities across the platform. In July, increased the number of exchange options with Citi Thankyou Rewards, initiating real time exchange availability with the American Airlines AAdvantage program. In August, added Air Canada's Aeroplan program as an additional exchange option with the Chase Ultimate Rewards program.
